Pass-Fail Option

Undergraduate students who have completed 30 or more credit hours with a GPA of at least 2.0 (15 of which must have been completed at the University of Maryland College Park) may register on a pass-fail basis if this option is offered. Only one course per summer session may be taken pass-fail. For further information on the pass-fail option, see the undergraduate catalog or www.testudo.umd.edu/soc/passfail.html.

Generally, visiting students are not granted permission to take courses with a pass-fail grading option. Those who are interested in taking a course pass-fail should contact their advisor from their home institution. Many institutions will not accept transfer courses from another institution if they were completed on a pass-fail basis.

The pass-fail grading system is a grading option for undergraduates only. However, a graduate program may, in certain cases, allow a graduate student to use the pass-fail option for a 100-300 level course. Graduate credit may not be earned for these courses. For further information on the pass-fail option, see the graduate catalog.

Final Examinations

All final examinations must be held on the last day of class for each summer session. No final examination will be given at another time without permission of the department chair. A final examination will be given in every undergraduate course. Exceptions require the written approval of the department chair and the dean.

Grades

Grades for Session I and Session II will be available approximately one week after the end of each session. Grades for the three-week sessions will be available at the same time as the regular session in which they begin. Grades for non-standard courses ending after the regular session in which they begin will be posted after regular session grade reports are posted. Grades can be viewed on line at www.testudo.umd.edu/apps/grades. Grade reports are not automatically mailed, but can be requested via the web.

Degree Candidates

Students who expect to complete requirements for degrees during the summer must apply for graduation with the Office of the Registrar no later than July 21, 2006, for degrees to be awarded as of August 2006. After years of negotiation, lately most of the dialogue between Palestinians and Israelis East is spoken with bullets and bombs. PHIL308A Studies in Contemporary Philosophy; (3) REG/P-F/AUD.
The responsibilities of carrying out a profession often give rise to special ethical questions. We will begin by considering the idea of a profession, the difference between professional (occupational) morality and ordinary morality, and various models for describing the relationship between professionals and those they interact with. This will bring us to three pervasive moral problems facing professionals: the problem of deception, the problem of informed consent and problems of privacy and confidentiality.

TuWTh 7:00pm-9:15pm (Arranged)

PHIL308D Studies in Contemporary Philosophy: Asian Philosophy Through Film; (3) REG/P-F/AUD.
Film is like a mirror held up to reality: in it we find those burning questions of man, world and state that shape our own reality and which fuel the fire of our own lives. This course focuses on the profoundest questions of human existence: What came before existence? What is the ultimate nature of the universe? What is the self? Which life should we lead: the ascetic's or the hedonist's (or something in between)? These questions, of central concern for us even in the modern world, consumed the teachings and works of Asia's greatest philosophical thinkers, and shaped Asian thought for millennia. We find that such universal and perennial questions shapes the world's greatest film literature too. Through the dynamic medium of the motion picture, we will explore such questions as: the nature of suffering and the self as the Buddha teaches, the Taoist view of the simplicity of life rooted in the unity of self and nature, Confucius' teachings on virtue for self and state, the Indian view of the unity of all things and the Jainist's view of the many-sidedness of reality. This course not only hopes to survey the Asian philosophical landscape (limiting itself to India, China and Japan), but it also hopes to survey the film literature from both the East and the West, and present an interesting array of film styles (from "Hollywood" to "Art").
